Biography: Provide a brief biography of this hound. Limit 250 words. Biography written by: Kathy Lipps

Nebbi was in over 500 trials which he ran injury free. He loved running and didn't want to stop as he once told an animal communicator. For over 10 years we chased him when the course was over yelling "Nebbi down." It worked at home but rarely on the coursing field. Yes he received course delay penalties but who could deny Nebbi this freedom. There are few that remember when we got him back at a year of age. He was in terrible condition. No muscle tone. Submissive urination. Nebbi did not produce because he has been poisoned by the previous owners which made him sterile. We were just happy to get the "male pick" of our first litter back from this "show" home. Nebbi finished his conformation championship out of the Bred By class. We also enjoyed agility together. When I couldn't keep up with him, he would bark and growl at me. According to the American Saluki Association he was ranked #1 in their agility stats for 2005.
