

RECORDS COORDINATOR TO HAVE SURGERY—

Please be patient.

It is important to let you all know that Lori Zorbaugh, ASFA Records Coordinator, will be having shoulder surgery on November 26th. She anticipates being able to still use her right arm, after several days. Obviously, it will be slower response times doing the records and answering e-mails “one-handed”.

Please be patient with your records requests, trial result postings, and all of the things that Lori does for us.
